

OUR STORY

Honoring our beloved founder & fearless leader
Jay Van Vechten

After serving as chairman for the City's Board for People with Disabilities from 2011 to 2014, Jay created the American Disabilities Foundation and served as its Founder, President, and CEO for 12 years. With the aid of an all-volunteer and dedicated Board of Directors and Planning Committee, Jay took over the city's Beach Bash and transformed it from a picnic in the park for a few hundred guests, to the largest, free, funfest celebrating diversity and inclusion in the nation.

In 2020 the Boca Raton Historical society recognized Jay for his service to the Community and paid tribute to him on Boca Raton's Walk of Recognition in Mizner Park.

Sadly, Jay passed away in 2020 but with the support of our community, his legacy will carry on.

ABOUT US

The Boating & Beach Bash for People with Disabilities is America's largest, free funfest for people with disabilities (seen or unseen)--including their families and caregivers—in the nation.

A true celebration of diversity, the Boating & Beach Bash demonstrates how a community can honor and salute those among us who struggle each day with unimaginable challenges.

OUR MISSION

The mission of the ADF is to serve people with physical or neurological challenges through programs that enhance and support the participants' emotional, psychological and physical health. We believe each individual deserves a day in the sun and a chance to discover possibilities for a better life and a day of joy and inclusion like no other. Our foundation believes that every individual deserves a chance to try something they thought was 'out-of-reach' & to discover possibilities for a better, more inclusive life.
